

*Richard Felciano*

**ORCHESTRA**

Metered sections are to be conducted and played in the normal manner.

Ad libitum sections are marked with a cue arrow  and are of 3 types:

- 1) non battuta in which the conductor does not indicate a pulse after the cue is given, the performers following the tempo indications in their respective parts;
- 2) battuta non metrica sections, in which the conductor beats a regular pulse after the cue is given but makes no metric indications; and
- 3) battuta metrica, in which the metrical conducting of some instruments is temporarily superimposed on a larger, non-metrical section.

Boxed notation indicates repetition as follows:

uncoordinated within the section: vary dynamics constantly between *p* and *f*; leave irregular pauses between notes.

coordinated within the section.

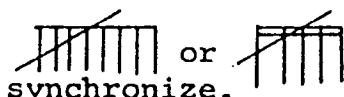

coordinated in the manner of a canon, the first chair entering with the cue, the others on successive beats.

All boxes repeat until another box or an exit cue  is indicated; the new cue should be observed immediately, even if so doing leaves a repetition incomplete. In some cases, where an exact number of complete repetitions will occur, they are indicated thus:

 10x

Accidentals carry throughout the measure and across barlines when tied.

All staccato notes should be considered staccatissimo regardless of note value.

slash (through any value) = as fast as possible. Do not synchronize.

= muffle

l.v.= let vibrate

 = diminuendo a niente

Strings

 or  indicate one quarter-tone higher or lower than the previous note.

 = molto sul pont., stop bow abruptly on the string.

All glissandi move immediately away from the starting note and are measured evenly throughout the given duration.
